Give a copy to a friend

This report is free. If you paid for it, you've been robbed. Impress your friends, colleagues and customers by giving them a copy. This report must NOT be sold. I've carefully checked this report for accuracy. However, I'm human. I may have made mistakes. If you spot any, please let me know so that I can fix them in future editions. The strategies and techniques in this report can be used to attract an enormous flood of visitors to a website. However, what you do with these techniques is up to you. Because I don't know you, don't know your skills and – most important of all - don't know how persistent you'll be, I can't make any guarantees. Your success depends on you.

Introduction

The purpose of this E-book is to be a fully functional, no strings attached, useful guide to yours and many others success in this simple business.

Un-like many E-books you have to sign up to a mailing list and agree to receive email in order to get the free E-book. Once inside of the E-book you are inundated with ad's, links that are of little use, or you are directed to other sites where you are required to spend some money all the while you have been told it is FREE!. Free means free to me. My favorite one is you are given only a few steps to success for free in an E-book. The problem is that you need to other steps not shared in the E-book to have the whole formula for success and those are not free. There are not such tactics in this E-book.

The time spent reading this E-book will not be a waste of time, I assure you. In fact I am going to do something that most people do not do and that is give you my personal contact information so you can get a hold of me directly. If you have any questions please do not hesitate to contact me and if I am not available leave me a message and I will get back to you.

Cell phone: 505-261-6630

Email address: weboppgdi@gmail.com

I tell you all this to simply say you will find none of this in this E-book. The E-book is titled “The Winning Team” because what I am going to share with you is a plan that if followed will work for everyone who gets involved. This is not about my business or about me. This book is about you and your success and the success of all those who get involved in your business group.

The real purpose is to help as many people financially as possible. What you will find from this point forward is a plan that shows how this is not only possible but how it works. While there is nothing new under the sun, what I am going to show is a fresh approach to marketing, and a philosophy that is really and truly embraced. There is no hidden agenda here. In fact I will tell you upfront what your minimum cost of doing business each month is. Are you ready for this? It is only \$10 per month. If you can afford \$10 per month then let me show you how can leverage that small minuscule investment into potentially thousands of dollars. Does that seem to good to be true? I

know it seems that way, trust me, read this E-book, follow the links, and see for yourself...Remember, no hidden agenda...I am shooting straight from the hip as they say. Again, if you want to contact me personally I encourage you to do so.

The marketing plan is really quite simple. Be a consumer of your product and pay it forward. This is the essence of the philosophy which I will explain in detail in a few short pages from now. The thing to remember is that you must do both of these things in order for this plan to really work for you. Honestly there is no auto-pilot here. You must fly this plane, none the less it is pretty simple.

The time could not be better than right now. There are people who are looking for what you have in your hands right now, that is if you are already an affiliate of this product. This product is easy to share, and is hard for anyone to say “no” to. This is one the best vehicles around to help people make ends meet.

I had a business acquaintance tell me, “If you will feed the masses you will eat with the classes.” What he meant was that if you have a product that anyone and everyone who wants it can afford, you will be successful financially. This product is perfect because it is so affordable. Again, this is not about me or even you, it is about the untold number of people who you will help to realize their dreams.

Now is a great time for this business and an even better time for you to get involved in a business such as this. By the way it cost you nothing, zero, zilch, to get started. That means no sign up fees. At the writing of this E-book (July 2009) unemployment is at an all time high, people are losing their jobs every day, and the economy is sagging and slumping. In times such as these are opportunities to help people, create economy (which is what is needed to stimulate economy), and be the bearer of the answer to so many problems people are facing in these trying times.

Think about it, if people are making money and paying their bills they are happy. If they are happy they are making purchases. If people are making purchases that means jobs and if these same people are keeping and getting jobs then the economy regains its health. This is a vehicle to help in all of these areas. I hope that will see the power and value of this business when you are done reading this E-book.

What is Your Vision?

With out vision people cast off constraint and go in their own direction (Proverbs 28:19). With out a vision we do not know what our purpose is. This is not to say the purpose is not there, it is not realized with out a vision. Without a vision there is no focus, or if there is it is not as strong as it could be.

You might be saying, “I don’t have time for this. Show me the money.” The truth is that you cannot afford not to take a moment to consider the aspect of a vision if you do not already have one. Ask yourself this very simple question, “What would it look like if my life was good?” In other words, what stressors do you face right now?

Do you have enough money to do the things you want to do, or to pay the bills the way you want to or need to? Do you have the freedom in your time to do the things you want to do? What stands in the way of your life being the way you envision? Once you answer these questions you will have some sense of what your vision is or begins to look like.

Vision is the thing that gives you energy when you feel like it is not worth it, or when things are not going the way you imagine they should. A vision provides a clear and concise path to where you want to be. It is not enough to know what it is you want or where you want to go. It is equally if not more important to know when you have gotten there.

Take the time right now to ask yourself what it would look like if things were just the way you want them. Then ask yourself what the barriers are or what is keeping you from realizing your vision. Then I want to ask you, will a lucrative business help you realize your vision and overcome your barriers.

Yes this is Network marketing

Like I said I was not going to hold anything back, so let's be upfront and call it what it is. Do not be discouraged if you are not fond of the idea. Read on and let me share a few ideas with you regarding network marketing.

Misconceptions

There are many misconceptions about what network marketing is. Some think it is a pyramid scheme. This is where one could not be more wrong. Network marketing, multi-level marketing, and referral marketing are the same. Let me ask you when was the last time you found something you really liked at a store or a restaurant and you went and told someone about it? When was the last time you did tell someone about a great sale or product and they went and made a purchase? I think we have all told someone about a great deal, but did you get paid for sharing about that product? The answer is probably "no". Network marketing or what I refer to as referral marketing is the best way to advertise. They say word of mouth is by far the best advertisement around. And that is what referral based marketing is with one exception, you get paid month after month. Now that is what I am talking about.

Why Network marketing is a good thing

Companies can advertise a variety of ways. They can use print media, billboards, radio, and television. No matter which way they go advertising is expensive. Companies that use network or referral marketing as their means of advertising are actually doing you and me a favor. What they (the business who has chosen network marketing as their means of advertising) have done is provided you a huge opportunity to make a lot of money to do those things you have only dreamed of.

This opportunity has allowed you to have your own business with all the benefits and almost none of the headache. Think about this for a minute. What business can you have that can make as much as you want to without employees, inventory, rent or lease, having to get up and drive to a store or office, and will grow each month once you have it

established? There is not other business on planet earth other than a network marketing business.

With this type of business is allows you the time, the money to do the things you want to do in life. It is a way to help others, and by others being successful you become successful.

It is not a pyramid scheme it is a powerful marketing model

Pyramid schemes are illegal. The Federal Trade Commission does not tolerate those rip of schemes either. They are fast to track them down and shut them down. A legal business has to have a couple things in place to make it legal. There must be a product in exchange for the money that is spent with the company. You must have the ability to exceed the person who referred you to the business. If those two factors are not present you are probably involved with a pyramid scheme. I can assure you this business is not a pyramid scheme.

The power of networking and marketing come together

When people get together and get excited about something an energy called synergy begins to take place. Synergy according to Stephen Covey is a power greater than the sum. Meaning that if you have 10 people who are excited about their business it could be like 50-100 people getting excited. If you take this excitement and join it with marketing you have a mean marketing machine that cannot be stopped. If you have a business group of people all using a product they enjoy and find useful and you get a percentage of the profits from each one of those people that is pretty nice. What is even better is that others in your business group are benefiting by sharing in the profits.

Take a look at the power of just one more. The difference between 5 and 6 people on you front line can make the difference between making thousands and losing money. Here is an example of 5 people in your business group and each one of them having 5 people in their group.

$$\begin{array}{r} 5 \\ 25 \\ 125 \\ 625 \\ \underline{3125} \\ \mathbf{3905} \end{array}$$

Look what happens if you add just one more person to your personal business group from 5 to 6.

$$\begin{array}{r} 6 \\ 36 \\ 216 \\ 1296 \\ \underline{7776} \\ \mathbf{9546} \end{array}$$

You can see in this example that by just adding one more person in your personal business group a difference of 5641 people all together. This is a win-win for everyone. The company selling their product moves more product and you make a commission every month for the product that moves through your combined business groups.

How the Average Person Succeeds.

While there is nothing new under the sun what is different about this plan is that it is designed that the average person like you and me can be successful. One of the biggest if not the biggest problem with network marketing is that not everyone is successful. Let me say right now “I AM NOT IMPLYING OR MAKING ANY GUARENTEE OF SUCCESS OR AMOUNT OF MONEY ONE CAN MAKE AT THIS BUSINESS.” That depends on your willingness to commit to your business and build it. We all reap what we sew. If sew a little seed we will reap a small harvest and the opposite is true. This plan is designed with a win-win philosophy in mind. What I can guarantee is that if you do nothing, noting will happen. There are three key components in this plan that must be followed in order for it to work the way it was designed.

However, this plan is designed for the average person and to help everyone be successful. If the plan is followed, and while there is no guarantee, it is designed to include everyone and not leave anyone out.

Use the product

In order for this business plan to be successful you must use the product. The product will be discussed in detail in the next section. The thing to remember is that the more products moving through you combined business group the more money you make and the more money the people in your group make. Remember that if people in your group are successful you will automatically be successful. The only way any success is going to happen is for every one to be using the product.

The product in this case is your own domain. A domain in basic term is a web address that ends in .com .net .org etc... In this case your website will end with .ws. For

example my website is at <http://www.webopp.ws>. You may be thinking “I do not want a domain of my own.” That’s okay. You do want to make some extra money to free you up to do the things in life you want to do don’t you? And to do those things in life takes money, and to make the money you need it takes a product and this is the product.

Make Money With .WS

The product is the one key component necessary to make this whole marketing plan work. There are a number of things you can do with your own domain name. You can have your domain be anything you want it to be. It can be <http://www.yourname.ws> and have it be the page you have people link to from your social networking sites as just one suggestion of what your own site can be used for. There are a lot of options and site building tools on in your back office of your account at Global Domain International.

Viral Marketing

It is one thing to use the product but the idea is to get as many people using the product as possible. The truth is that most of us are not going to cold call, or do anything that terrifies us. But we will tell our friends especially if this is made easy for us. One easy way is to notify everyone in our email contact list and share with them this amazing opportunity.

What happens when you tell ten people and those people tell ten more and so on.

The marketing goes viral and it grows exponentially. Before you know it people by the thousands are talking about your business and it is growing with you always being aware of the growth taking place.

In order for this viral affect to take place it requires that everyone be telling someone about this business. Word of mouth is the most powerful form of marketing in the world. It is priceless and cannot be bought with money. When you share something with someone you know and you are excited two things happen. First there is integrity that cannot be shared come from anyone but you.

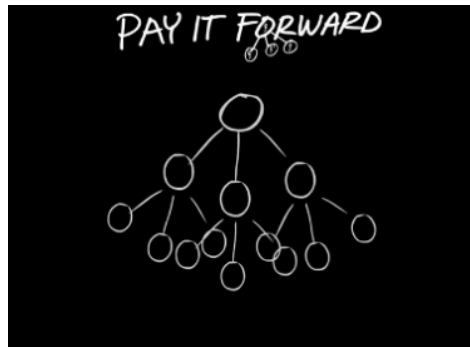

The second thing that happens when you share about something you are excited in is the enthusiasm that conveys genuine heart felt belief in what you are talking about or sharing.

When you share with people and they share with people and this continues you now have the most powerful advertising vehicle working for you and it is unstoppable. That is why they call it viral marketing because like a virus this type of advertising is out of control in a good way. Can you imagine hundred if not thousands of people all looking at your referral marketing business and getting involved? This is truly awesome advertising and you did not spend a dime for it.

Pay it forward

Paying it forward is a simple philosophy of doing something for someone else without expecting anything in return. This is the third component of this marketing model. While this is the last but definitely not the least of the key components of this marketing plan, but in some ways this may be the most important part of the plan. There can be a great product, an awesome compensation plan, and a unstoppable advertising plan but if people are not being help and their lives improved it is for not. It is a waste of time if we are not helping others to help others.

The idea is to help someone with out expecting anything in return with only one expectation that the people helped will help someone else and that is how paying it forward works. It is however to be realistic not to expect everyone that you help and pay it forward to in turn pay it forward. If you pay it forward to enough people many of them will in turn pay it forward to other people.

The next question is how does pay it forward fit into this marketing plan? In network marketing it is one thing sponsor a bunch of people into YOUR business. The problem with this is that YOUR business grows and the people in your business are only benefiting you and not getting benefited. This is one of the biggest reasons referral based marketing business do not do well. It is not the type of marketing it is how the marketing is done.

With Global Domains International (GDI) there is an option to move newly sponsored people in your business group to other people in your business group. By moving these people under other people in your business group it helps those people out by starting a business group for them. Imagine you have ten people in your immediate business group and you help those ten people get ten people in there business group. What you have done is help ten people get started and stay in business.

Let's take this one step farther. You have ten people you have helped sponsor ten people and they in turn help ten people sponsor ten people in their business group through this philosophy of pay it forward. Imagine many people in one group all paying it forward. The outcome is many people being helped to realize success. It is more than success; it is about helping them improve the quality of their life and the life of their family's.

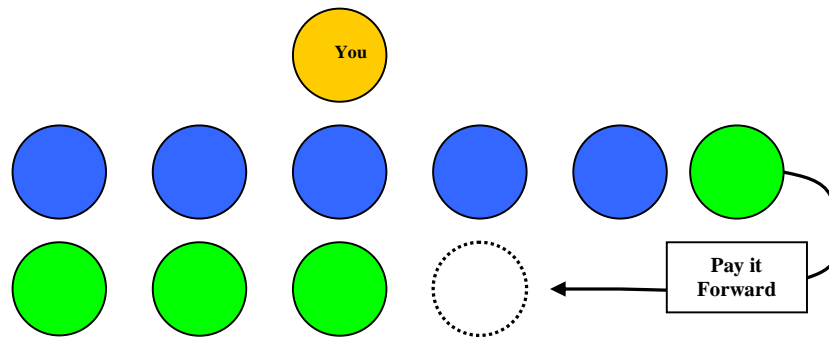

I know this sounds utopical and I admit it does a little bit. What is real is that you must believe in helping people and that it will pay off.

If you help enough people get what they want you will have what you want—Zig Ziglar

Let's face it some people will never tell another soul about this business and may just be a subscriber. That is okay with me. I will take 10,000 people who are faithful users of the product. You can build a strong business group with people who are just consumers of the product. The important thing to remember is that you want to lock them in by helping them make money, even if it is \$10-\$20 to start.

With the unique placement system you can place people you sponsor under someone in you first level. If everyone gets ten people on their first row and helps each of those people get ten people each you will see an explosion take place with in many of the

different business groups with in your entire business group. The ideal situation is for every person to have 10 people in their immediate business group.

You pay it forward by moving a newly sponsored person to someone who is just starting their business. This helps to build security and models what you want them to do.

By paying it forward you are role modeling what you want others to do. People will never do more than you do. As their leader you need to be the one to set the pace of the business group with your leaders and builders. Again, don't forget the value of the "consumers". Do not try to get people to do more than they are comfortable with. Value each person on your team regardless of their level of activity. Just using the product is a contribution all by it self.

Imagine with me for a minute. What would your business group look like if you had 10 or 15 people paying it forward helping those individuals who are shy and bashful make money. These type of people are the majority and are those who would never go out and actively build a group. I hope you see the power of paying it forward and the value of every person in a group.

The product

It seems that everyone now days has a webpage or is on a social website or two. More and more people are finding a need to have a website of their own to share personal information, have a place they can sell a product, or simply share information. This is the best opportunity to help people get their own inexpensive, easy to use, and highly reliable domain of their very own. Global Domains International has the exclusive distribution rights to the ".ws" extension which stands for website.

You may be saying, I do not want a website of my own. That is okay. You can set up your website like I did and have it be a sales page...check it out <http://www.webopp.ws> There are many of different pages you can choose from to direct people to.

The company has many sales pages to choose from or you can use their powerful site building tools to create a professional webpage is just minutes right from your browser. You get your own email from your domain which can be accessed a variety of ways.

For a better idea of what you get for only \$10 per month go to <http://tinyurl.com/lzfxwv>

Even if you do not need the website you need the money. This product and business is only a \$10 investment each month. It is the easiest business and product to get people involved in. All you have to do is explain that it is the cost of lunch for one day (ok, maybe two days) and the potential return is exponential. People are making thousands each month from just one \$10 dollar investment. See what people are saying <http://tinyurl.com/ljt754> .

This is a great product for the masses because it has the largest return on investment. Anyone can afford, it is the easiest business to get people involved in, has some of the highest quality sales tools, and it is fun.

The company

Global Domains International (GDI) has been around since 2000. It is a debt free company that pays its affiliates on time. GDI placed #37 on the Inc. 500 “List” of the USA’s 500 fastest growing private companies and #5 in the state of California. The nice thing is that this business has only just begun. Chances are you have not heard of GDI. That is a good thing because this lets you know that there is a lot of room for growth. This link will take you to a page that will explain more in detail <http://tinyurl.com/n9n6ny> .

Generous bonuses

There are many bonuses offered. The “Heavy Hitter” bonus where you can make and additional \$5000, the “Infinity” bonus where you can get paid to infinity, and then there is the \$100 bonus. For every personally sponsored people in a give week you can make \$100. For example if you sponsored 20 people you could make and additional \$400 on top of your regular compensation.

So Why This Website?

So why are we using <http://www.webopp.net>? This is simply a sales tool that will help many people build their business. By using the same indexed videos and website it demonstrates popularity thereby a better rating and position of the search engines.

You can have a page of your own at www.webopp.net It would look something like www.webopp.net/2009/7/30/youname . I would recommend using a service such as <http://tinyurl.com> to shorten your personal URL. The advantage is the more people who

view the video the more popularity the site gets and the more people hopefully clicking on your site.

On your personal GDI back office you will have a place where you can send an email to your email contacts from GDI and I highly recommend using that option. This blog site is a way that many people can pull their efforts together and boost the ranking of a site that will benefit all that have a page.

By working together the idea is to cause a viral advertising affect. As you can see the page is encourages the person to get back with the person who sent them to the site. If someone lands on my site I am going to make sure there did not get there by accident and make sure they get with the person who sent them.

There are two parts. The website and the video. Just think if we all work together and promote a site as a tool to build our site and we manage to send 1,000,000 over time and only 2% sign up that is 20,000 people. What do you think that would to your business group? I want to encourage you to get in early and sign up.

This site is not automated...that is a good thing

This site is not automated. There are a lot of automated sites that work really well, but none have the personal touch this one does. If you notice on the main page of this site my personal link is not there. I ask people to contact me so I can direct them where to sign up.

You duplicate wegbopp page will have a link to your personal GDI site. As you can see this website is truly here to help you and your team succeed.

If you want a duplicate web page like the main page at www.webopp.net just email me at weboppgdi@gmail.com If you want a copy of this E-book to give away with your links in it let me know and I will make it available to you as well...free of charge.

The vision and passion of webopp is to see a lot of people succeed at making extra income.
